

LADDER LEVELERS, LLC

N. Las Vegas, NV www.LadderLevelersLlc.com

Xtenda-Leg™

Essential for working safely on uneven surfaces.

Level a ladder in seconds with unlimited adjustment positions. Extend or retract leg by squeezing spring loaded lock plates.

Feet pivot 360° X 45°

Model 600 rubber feet for firm surfaces

Model 700 metal cleated feet for greater safety on soft surfaces such as gravel, grass, or mud.

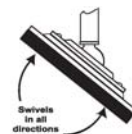

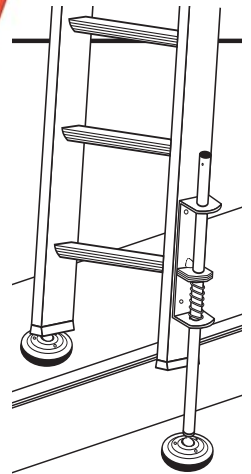

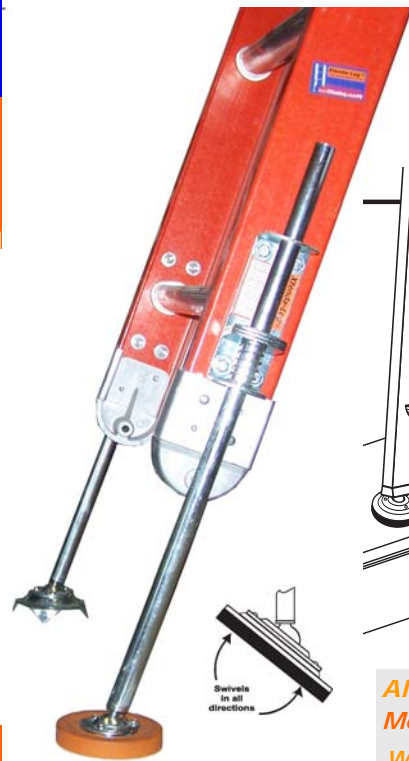

Levels type II, I & 1A ladders up to 32ft

New Xtenda-Leg™ strengthened to exceed OSHA proposed safety standard ANSI 14.8

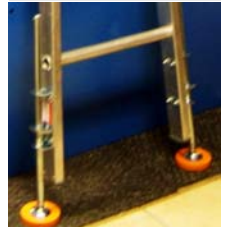

Consumer Reports Wrote "Tested the strength of the Xtenda-Leg at its maximum and most precarious extensions. With 800 pounds aboard a Type III ladder, the tubular legs bent slightly but didn't break. They should hold up perfectly well under normal use."

Made in USA

Also for use on Metallic brand Window washer stack ladders

Base (type 1 only) Requires Optional Bolt Kit. Part# LL-SL-Bolt-Kit 8pc

700 Cleated Feet
Levelers intended for use only on penetrable surface

Flexible Straight PLASTIC

This easy to clean shield is made from high impact styrene. The drip guard with front & back run-off lips direct paint away from handle and control sagging while at the same time allows flexibility. Plastic shields are less likely to leave marks on surfaces like aluminum siding and white or pastel colors sometimes evident with aluminum shields.

24" #-610-710 18" Wide Grip Handle

UPC Code: 726096610717

24" #-610-740 Quick-Angle Adjusting Handle

UPC Code: 726096510741

Combo Drywall-Mud Scrapper & Paint Shield

A versatile shield, rigid and compact. Rigidity comes from the one-piece construction and special forming of the paint guard. This shield makes an excellent wipe-down knife and its compact size makes working in confined areas a breeze.

A Hit for Home Do It Yourselfers painting with a brush or sprayer. Keeps paint off base boards, carpet, windowsills and two-tone painting of wall or ceilings

Roswell Paint Mixer Item #6-810

UPC Code: 726096008101 Ctn. Of 6pc

The "go anywhere people-powered paint mixer."
Mix up to 5 gallons in just 10 - 30 seconds.
Green: no electricity environmentally friendly
 Saves time and money!

Made in USA

ALUMINUM: FLEX STRAIGHT & ANGLED PAINT SHIELDS

Aluminum often best for working on dry wall. Flex verse Stiff is simply a preference of the tradesmen.

FLEX STRAIGHT Aluminum

For those who prefer a little flex in there straight shields, this shield gives just the right amount without sacrificing control. Specially formed vinyl drip guard has front & back run-off lips which direct paint away from handle.

STIFF ANGLED LEADING EDGE Aluminum

A 30° bend 5/8" off leading edge lets this shield form easily to shallow widths such as window frames. Shielding such areas while moving the body of shield away from the work area. This bend also adds additional stiffness desired by some tradesmen.
