

LADDER LEVELERS LLC.

Xtenda-Leg®

Essential for working safely on uneven surfaces.

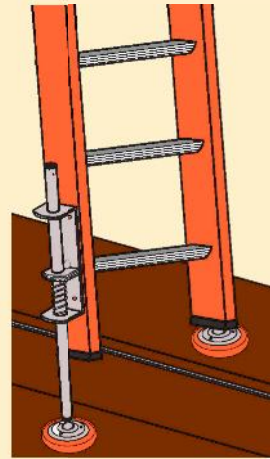

Adjust the level of a ladder in seconds! Simply push down on lock plates, level the ladder, then release.

Feet pivot 360° X 45°

Model #600 kraton rubber feet, superior grip.

Model #700 metal cleated feet for greater safety on penetrable surfaces such as grass, gravel, asphalt, mud, snow & ice.

For type II, I & 1A ladders up to 32ft

Xtenda-Leg® built to meet OSHA safety standard ANSI 14.8-2013

Consumer Reports Wrote "Tested the strength of the Xtenda-Leg at its maximum and most precarious extensions. With 800 pounds aboard a Type III ladder, the tubular legs bent slightly but didn't break."

Installed On Metallic brand Window washer STACK LADDERS

As Stack Ladder legs are 1" thick, requires optional Bolt Kit. Part# 802

Allows Feet to extend up past original feet of Ladders Manufacturer 4 Blocks, 8 Extra Long Screws

Light weight and easy to clean, Paint Spray Shields provide protection and reduced **splatter** **Save Time** as you eliminate the need for **taping**.

18" Wide Grip Handle or Pole Handle with LDA **exclusive** Ratchet Angle Adjustment. An internal release and locking Mechanism allows shield angle changes with just a push or pull of shield.

Pole Handle commonly use for 2 person spraying. An extension pole is screwed into shield handle. 1 person holds shield up to ceiling or crown molding.

PLASTIC impact styrene Spray Shields

Easy to clean shield is made from high impact styrene. A drip guard with front & back run-off lips direct paint away from handle and control sagging while still allowing flexibility. Plastic shields are less likely to leave marks on surfaces like aluminum siding and white or pastel colors sometimes evident with aluminum shields.

24" **610710-#** 18" Wide Grip Handle UPC 726096610717

24" **610740-#** Pole Handle UPC 726096610748

36" 510710-# 18" Wide Grip Handle UPC

LDA Kraft-disposable cardboard Shield Holder

726096510710

LDA Kraft-disposable cardboard Paint Shield Holder

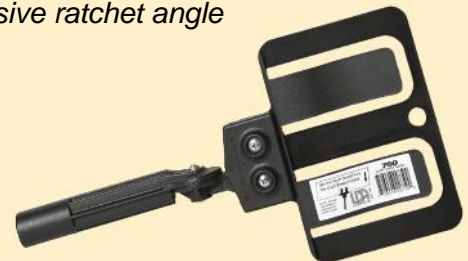

Insert cardboard for use as disposable shields.

Save time as you eliminate the need for taping areas you don't want to paint and little clean up as you toss cardboard when job is done. Shield not in a comfortable position, change shield angle with just a push or pull of shield through LDA exclusive ratchet angle adjustment. Tool accepts pole for extended reach.

= 1 for individual unit, 5 for Ctn/Case

ANGLED Aluminum 18" Wide Grip Handle

A 30° bend on this Paint Spray Shield, it provides a flat area to rest the weight of the shield against. **Less fatiguing and more comfortable** when reaching above to a ceiling or below to a foundation. Special bends create a highly functional drip guard.

24" 130710-# UPC: 726096130712

36" 320710-# UPC: 726096320716

48" 410710-# UPC: 726096410713

= 1 for individual unit, 5 for Ctn/Case

ANGLED LEADING EDGE Aluminum 18" Wide Grip Handle

A 30° bend 5/8" off leading edge lets shield form easily to shallow widths such as window frames. **Allows user to shield areas while moving the body of shield away from the work area.** This bend close to the edge adds further stiffness preferred by some.

36" 300710-# UPC: 726096300716

= 1 for individual unit, 5 for Ctn/Case

24" Combo Shield & Mud Scraper Knockdown

110-710-# UPC 7 26096 1171 2

A versatile shield, both rigid and compact. Rigidity comes from the one-piece construction and special forming of the paint guard. This shield makes an excellent wipe-down knife and its compact size makes working in confined areas a breeze.

= 1 for individual unit, 5 for Ctn

NEW Display Ready Packaging

Increase sales through simpler displaying of shields allowing customers impulse to pull item. Reduced rack space & store labor. Customer convenient transporting of tool.

Shield Carton/Case Size 13-3/4 X 2-3/8 X shield length+3/4"
